The ONDA luggage rack features a flexible design with adaptability to different bus ceiling shapes; multiple options and features such as secondary lights , handrails , etc...

- Modularity
- Conforms to different bus roof structures with technology of adaptable bracket design
- Last minute multiset positioning - with "Hadley multiset system" by just trimming the spacer it is easy to add or remove a multiset if the seat floorplan has to change
- Easy installation of 2 luggage racks
- OEM just takes care of the first connection for the lighting (no fabrication on ceiling and no wiring harness needed for dome light), Hadley luggage rack system is completely cabled.
- Easy maintenance: easy access to
  - A/C plenum
  - LED light
  - A/C Duct

## ONDA™ LUGGAGE RACK OPTIONAL FEATURES

- 9 LED reading lights that provide a luminous flux of more than 20 foot candle @ reading position
- Air vent (max air outlet opening 1.78 sq. in.)
- Blue nightlight
- Optional stop button

### ILLUMINATED HAND RAIL

- Electroluminescent stripe
- Dimmable
- Makes night travel safer
